PART I

FINANCIAL INFORMATION

ITEM 1. FINANCIAL STATEMENTS

The unaudited, condensed financial statements included herein, commencing at page F-1, have been prepared in accordance with the requirements of Regulation S-B and, therefore, omit or condense certain footnotes and other information normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America. In the opinion of management, all adjustments (including all normal recurring adjustments) necessary for a fair presentation of the financial information for the interim periods reported have been made.

Results of operations for the three months ended March 31, 2006, are not necessarily indicative of the results of operations expected for the year ending December 31, 2006.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

The following discussion with regard to the Company's financial condition and operating results contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are based on current plans and expectations of Orthodontix, Inc. (the "Company") and involve risks and uncertainties that could cause actual future activities and results of operations to be materially different from those set forth in the forward-looking statements. Important factors that could cause actual results to differ include, among others, the Company's inability to consummate an acquisition of an operating business on terms favorable to the Company or, in the event the Company does consummate the transaction contemplated, the Company's ability to successfully manage and operate the combined business.

The discussion of the Company's financial condition and plan of operation should be read in conjunction with the Company's unaudited, condensed financial statements and notes thereto included elsewhere in this Report and the Company's Annual Report on Form 10-KSB filed with the Securities and Exchange Commission.

FINANCIAL RESULTS FOR THE THREE MONTHS ENDED MARCH 31, 2006 AND 2005

For the quarter ended March 31, 2006, the Company recorded a net loss of approximately \$11,200 or less than \$0.01 per share. Included in the financial results for the quarter ended March 31, 2006, were general and administrative expenses of approximately \$21,100, and interest income of approximately \$9,900.

For the three months ended March 31, 2005, the Company recorded a net loss of approximately \$10,400 or less than \$0.01 per share. Included in the financial results for the three months ended March 31, 2005, were general and administrative expenses of approximately \$10,900, and interest income of approximately \$500.

The Company does not expect to generate operating revenues or net income until such time as it effects a business combination with an operating company. However, in the event the Company does consummate a merger or an acquisition of an operating company, there can be no assurances that the combined operation will operate profitably.

#### LIQUIDITY AND CAPITAL RESOURCES

As of March 31, 2006, the Company had cash and cash equivalents of approximately \$931,700 and total liabilities of \$58,100. The Company's cash is primarily invested in certificates of deposit. The Company continues to anticipate that the primary uses of working capital will include general and administrative expenses and costs associated with seeking to locate and consummate a business combination. The Company believes that its operating funds will be sufficient for its cash expenses for at least the next twelve months.

#### PLAN OF OPERATION

Management of the Company intends to continue devoting substantially all of its time to consummating a merger or acquisition with an operating business and has evaluated numerous companies and other business combinations. The Company has focused its efforts on businesses operating in selected industries including aircraft maintenance and related service companies, health care, pharmaceutical, banking and financial services. In the event the Company locates an acceptable operating business, the Company intends to effect the transaction utilizing any combination of its common stock, cash on hand, or other funding sources that the Company reasonably believes are available. The Company currently has no contractual commitment with regard to effecting an acquisition or other business combination with an operating company.

Although the Company believes that it will be successful in consummating a business combination with an operating company, there can be no assurances that the Company will enter into such a transaction in the near term or on terms favorable to the Company, or that other funding sources will be available.

#### ITEM 3. CONTROLS AND PROCEDURES

As of March 31, 2006, the Company's President and Chief Executive Officer and its Acting Chief Financial Officer evaluated the Company's disclosure controls and procedures and they concluded that the Company maintains effective disclosure controls and procedures. There have been no significant changes in internal control over financial reporting that have materially affected, or are likely to materially affect, the Company's internal control over financial reporting subsequent to the Evaluation Date.

1. BASIS OF PRESENTATION

The accompanying unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules and regulations of the United States Securities and Exchange Commission for interim financial information. Accordingly, they do not include all the information and footnotes necessary for a comprehensive presentation of financial position and results of operations.

It is management's opinion, however, that all material adjustments (consisting of normal recurring adjustments) have been made which are necessary for a fair financial statement presentation. The results for the interim period are not necessarily indicative of the results to be expected for the year.

For further information, refer to the audited financial statements and footnotes of the Company for the year ended December 31, 2005 included in the Company's Form 10-KSB.

2. Nature of Operations and Summary of Significant Accounting Policies

A. Nature of Operations

On April 16, 1998, Orthodontix, Inc. and subsidiaries ("Orthodontix" or the "Company") consummated a merger (the "Merger") with Embassy Acquisition Corp. ("Embassy"), a publicly held Florida corporation. Simultaneously with the closing of the Merger, the Company acquired certain assets and assumed certain liabilities of 26 orthodontic practices (the "Founding Practices").

During the year ended December 31, 1999, the Company began to terminate its affiliation with the Founding Practices. During the year ended December 31, 2001, the Company terminated its affiliation with all 26 Founding Practices.

The accompanying unaudited financial statements have been prepared on the basis which assumes that the Company will continue to operate as a going concern and which contemplates the realization of assets and the satisfaction of liabilities and commitments in the normal course of business. The Company has generated an accumulated deficit of \$3,823,929 at March 31, 2006 as a result of current operations and historical operations in connection with the termination of its affiliation with the Founding Practices. The Company incurred a net loss of approximately \$11,000 for the three months ended March 31, 2006. The Company also reflects net cash used in operations of \$53,514 for the three months ended March 31, 2006. At March 31, 2006, the Company has sufficient cash and cash equivalents to meet its current obligations.

The Company currently intends to effect a merger, acquisition or other business combination with an operating company utilizing any combination of its common stock, cash on hand or other funding sources that the Company believes are available. During the three months ended March 31, 2006, management has devoted substantially all of its time to identifying potential merger or acquisition candidates. There can be no assurances that management's efforts to consummate a merger, acquisition or business combination with an operating company or management's efforts to identify other funding sources will be successful. The Company anticipates that its current working capital is sufficient to fund its operating expenses at their current level for at least the next twelve months.

#### B. Use of Estimates

In preparing financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the periods presented. Actual results may differ from these estimates.

Significant estimates during 2006 and 2005 include a 100% valuation allowance for deferred tax assets.

#### C. Cash and Cash Equivalents

For the purpose of the cash flow statements, the Company considers all highly liquid investments with original maturities of three months or less at the time of purchase to be cash equivalents. In 2005, the Company purchased certificates of deposits, using funds from a money market account, and proceeds from sale of common stock.

For the three months ended March 31, 2006 and 2005, the Company recognized interest income on these certificates of deposit totaling \$9,864 and \$505, respectively.

#### D. Concentrations

The Company maintains its cash in bank deposit accounts, which, at times, exceed federally insured limits. As of March 31, 2006, the Company had deposits of \$705,650 in excess of federally insured limits. The Company has not experienced any losses in such accounts through March 31, 2006.

#### E. Income Taxes

The Company accounts for income taxes under the Financial Accounting Standards No. 109 "Accounting for Income Taxes" ("Statement 109"). Under Statement 109, deferred tax assets and liabilities are recognized for the

future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under Statement 109, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period, which includes the enactment date.

#### F. Earnings per Share

In accordance with Statement of Financial Accounting Standards No. 128, "Earnings per Share", basic earnings per share is computed by dividing the net income (loss) less preferred dividends for the period by the weighted average number of shares outstanding. Diluted earnings per share is computed by dividing net income (loss) less preferred dividends by the weighted average number of shares outstanding including the effect of share equivalents. At March 31, 2006 and 2005, respectively, there were no common share equivalents, which could potentially dilute future earnings per unit.

#### G. Stock Based Compensation

In December 2004, the FASB issued SFAS 123 (revised 2004) "Share-Based Payment" ("SFAS No. 123R"). This Statement requires that the cost resulting from all share-based transactions be recorded in the financial statements. The Statement establishes fair value as the measurement objective in accounting for share-based payment arrangements and requires all entities to apply a fair-value-based measurement in accounting for share-based payment transactions with employees. The Statement also establishes fair value as the measurement objective for transactions in which an entity acquires goods or services from non-employees in share-based payment transactions. The Statement replaces SFAS 123 "Accounting for Stock-Based Compensation" and supersedes APB Opinion No. 25 "Accounting for Stock Issued to Employees". The provisions of this Statement will be effective for the Company beginning with fiscal year 2006. The Company has adopted the provisions of SFAS No. 123R effective January 1, 2006.

The Company had no employee share-based payment awards outstanding during the three months ended March 31, 2006 and 2005, respectively.

#### H. Fair Value of Financial Instruments

Statement of Financial Accounting Standards No. 107, "Disclosures about Fair Value of Financial Instruments," requires disclosures of information about the fair value of certain financial instruments for which it is practicable to estimate the value. For purposes of this disclosure, the fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation.

ORTHODONTIX, INC.  
NOTES TO UNAUDITED FINANCIAL STATEMENTS  
MARCH 31, 2006  
(UNAUDITED)

The carrying amounts of the company's short-term financial instruments, including prepaids and accrued liabilities, approximate fair value due to the relatively short period to maturity for these instruments.

3. Related Party Transactions

During the three months ended March 31, 2006 and 2005, the Company paid \$2,400 and \$0, respectively for director's fees.

At March 31, 2006, the Company has accrued \$4,450 in accounting fees owed to its CFO. Of this total, \$3,100 was paid in April 2006. Director's fees are included as a component of accrued liabilities.
