PART I

FINANCIAL INFORMATION

ITEM 1. FINANCIAL STATEMENTS

The unaudited, condensed consolidated financial statements included

herein, commencing at page F-1, have been prepared in accordance with the requirements of Regulation S-B and, therefore, omit or condense certain footnotes and other information normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America. In the opinion of management, all adjustments (including all normal recurring adjustments) necessary for a fair presentation of the financial information for the interim periods reported have been made.

Results of operations for the three months ended March 31, 2002 are not necessarily indicative of the results of operations expected for the year ending December 31, 2002.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS AND PLAN OF OPERATION

The following discussion with regard to the Company's financial condition and operating results contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are based on current plans and expectations of Orthodontix, Inc. (the "Company") and involve risks and uncertainties that could cause actual future activities and results of operations to be materially different from those set forth in the forward-looking statements. Important factors that could cause actual results to differ include, among others, the Company's inability to consummate an acquisition of an operating business on terms favorable to the Company or, in the event the Company does consummate the transaction contemplated, the Company's ability to successfully manage and operate the combined business.

The discussion of the Company's financial condition and plan of operation should be read in conjunction with the Company's unaudited, condensed consolidated financial statements and notes thereto included elsewhere in this Report and the Company's Annual Report on Form 10-KSB filed with the Securities and Exchange Commission.

FINANCIAL RESULTS FOR THE QUARTER ENDED MARCH 31, 2002

For the quarter ended March 31, 2002, the Company recorded a net loss of approximately \$35,800 or \$0.01 per share. Included in the financial results for the quarter ended March 31, 2002, were general and administrative expenses of approximately \$40,600 and interest and other income of approximately \$4,900.

The Company does not expect to generate operating revenues or net income until such time as it effects a business combination with an operating company. However, in the event the Company does consummate a merger or an acquisition of an operating company, there can be no assurances that the combined operation will operate profitably.

1

LIQUIDITY AND CAPITAL RESOURCES

As of March 31, 2002, the Company had cash and cash equivalents of approximately \$862,800 and total liabilities of approximately \$70,100. The Company's cash is primarily invested in money market accounts. The Company continues to anticipate that the primary uses of working capital will include general and administrative expenses and costs associated with seeking to locate and consummate a business combination. The Company believes that its operating funds will be sufficient for its cash expenses for at least the next twelve months.

PLAN OF OPERATION

Management of the Company intends to continue devoting substantially all of its time to consummating a merger or acquisition with an operating business and has evaluated numerous companies and other business combinations since June 2001. The Company has focused its efforts on businesses operating in selected industries including aircraft maintenance and related service companies, health care, pharmaceutical, banking and financial services. In the event the Company locates an acceptable operating business, the Company intends to effect the transaction utilizing any combination of its common stock, cash on hand, or other funding sources that the Company reasonably believes are available. The Company currently has no contractual commitment with regard to effecting an acquisition or other business combination with an operating company.

Although the Company believes that it will be successful in consummating a business combination with an operating company, there can be no assurances that the Company will enter into such a transaction in the near term or on terms favorable to the Company, or that other funding sources will be available.

ORTHODONTIX, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2002
(UNAUDITED)

1. BASIS OF PRESENTATION:

The accompanying unaudited condensed consolidated financial statements of Orthodontix, Inc. ("Orthodontix" or the "Company") presented herein do not include all disclosures required by accounting principles generally accepted in the United States of America for a complete set of financial statements. In the opinion of management, these financial statements include all adjustments, including normal recurring adjustments, necessary for a fair presentation of the results of interim periods.

The results of operations for the three months ended March 31, 2002 are not necessarily indicative of the results of operations to be expected for the year ending December 31, 2002. The unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-KSB as filed with the Securities and Exchange Commission on March 27, 2002.

2. ACCOUNTS PAYABLE AND ACCRUED EXPENSES:

Accounts payable and accrued expenses consist of the following:

	March 31, 2002 (Unaudited)	December 31, 2001
Accounts payable	\$ 4,214	\$ 4,214
Accrued expenses	65,866	73,062
	\$ 70,080	\$ 77,276

3. EARNINGS PER SHARE:

Basic earnings per share is calculated by dividing net income or loss by the weighted average number of common shares outstanding during the period. Diluted earnings per share is calculated by dividing net income or loss by the weighted average number of common shares and potential common equivalent shares outstanding during the period. Potential common shares consist of the dilutive effect of outstanding options calculated using the treasury stock method. For the three month period ended March 31, 2001, the potential common shares were antidilutive; thus there was no difference in the basic net income per share and the diluted net income per share. There were no potential common equivalent shares for the three months ended March 31, 2002.
